THE NEW GENERATION OF HEAT

**PERSEUS
RADIATOR**

PERSEUS RADIATOR

CHARACTERISTICS

- Portable radiator, light and easy to transport.
- Simple installation, it is sufficient just one electric outlet with adequate supply pressure.
- On/Off switch.
- No connection to the water mains required.
- No maintenance required.
- High efficiency.
- Even heat distribution.
- No pollution.
- No CO2.

NO HARMFULL ELECTROMAGNETIC EMISSIONS

BODY

The body is made of thin porcelain tiles, inorganic compound that takes a solid shape after baking at a temperature of over 1.250°C. High efficiency regarding heat emissions and thermal inertia, possess heating quality typical for natural products.

CARBON FIBER

Carbon fiber is flexible, does not oxidize, does not produce harmful electromagnetic fields during electricity flow, has no dimensional variations as the temperature changes nor deterioration of ohmic values. No wearing and no maintenance required. Its high resistivity permits significant energy savings.

Details

COLORS CHART

The manufacturer reserves the right to change the colors and the technical specifications of the products at any time without notice.

AOA
Nero opaco ruvido
Matt rough black

COC
Grigio perlato ruvido
Matt rough perl grey

DOD
Sabbia opaco ruvido
Matt rough sandy brown

MODEL	POWER SUPPLY	POWER	PROTECTION DEGREE	INSULATION RATE	WEIGHT (kg/lb)	DIMENSIONS (cm/in)
GPR1	230 Vac 50/60 Hz	240 W	IP20	II	6,5/14.33	50/19.68 x 70/27.56 x 13/5.12

CONFORMITY

This product is manufactured in conformity with the electrical safety standards set by low voltage norm 2006/95/CE. This product is in conformity with norm 2004/108/CE, concerning the standards for electromagnetic emissions.
